

2010-2011 ICE MELT PRODUCT LIST

Ice-A-Way Rock Salt – Bagged Rock Salt

- Features:
- Economical ice melt solution
 - Melts ice and snow down to 5 deg F
 - Optimized crystals for high performance

FreezGard/MAG Pellets – 100% Magnesium Chloride

- Features: (Available in Flakes and Pellets)
- Less toxic than baking soda
 - U.S. Dept of Transportation research concluded that Magnesium Chloride is less damaging to concrete
 - Iowa State University studies indicate that Magnesium Chloride is less harmful to turf s

Maximum Salt – Ice-Bite® Treated Rock Salt

- Features:
- Works 30% faster than rock salt
 - Melts ice and snow down to -30 deg F
 - Reduces chloride usage

SafeStep Ice Melt - Premium Blend

- Features:
- Patented blend that helps prevent re-freezing up to 2½ times longer than conventional ice melt
 - Safe to handle - will not harm skin
 - Contains MG 104® (Potassium chloride based)

Thawmaster Ice Melt - Value Blend

- Features:
- Uses AMC for fast high-powered ice melting
 - Green colored crystals for easy application
 - Melts Ice and snow to -5 degrees F. Special coating adheres crystals to ice and snow

Lightning Fast Ice Melt - Premium Blend

- Features:
- Melts ice and snow to -12 Degrees F
 - Blue crystals help provide efficient application and even ice melting
 - Safe for use on treated wood and concrete

Calcium Chloride Pellets

- Features: (Available in 50# Bags and 50# Pails)
- Dual action moisture absorption and heat generation for fast snow and ice melting
 - More than 90 percent calcium chloride—the most effective ice and snow melting compound
 - Melts ice and snow 2 to 5 times faster than other ice melt solutions

Industrial Strength Ice Melt - Industrial Blend

- Features:
- One of the most effective ice melting blends of calcium and magnesium chloride
 - Fast acting heat generation. Ice and snow begin melting upon contact
 - More efficient when compared to rock salt
 - Melts Ice down to -15 degrees F

Power Thaw Ice Melt – Professional Blend

- Features:
- Melts ice and snow to -20 Degrees F
 - Blue crystals help provide efficient application and even ice melting
 - Safe for use on treated wood and concrete

New This Year.....SnowSlider™ and 24” and 18” Snow Shovels!!

Bulk Rock Salt - Call for Pricing!

SnowSlider™ (magnesium-chloride coated bulk rock salt) – Call for Pricing!
