

REGREEN™

TURFGRASS COLORANT

KEEP OUT OF REACH OF CHILDREN

PRECAUTIONARY STATEMENTS

If medical advice is needed, have product container or label at hand. Read label before use.

FIRST AID

- If in Eyes:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice or attention.
- If on Skin:** Wash affected area with plenty of soap and water. Use tepid water if available. If skin irritation occurs: Get medical advice or attention.
- If Swallowed:** Rinse mouth. Have person sip a glass of water if able to swallow. Do NOT induce vomiting, unless told to by a poison control center or doctor. Do not give anything to an unconscious person.
- If Inhaled:** Move person to fresh air. If person is having difficulty breathing, give oxygen. If not breathing, give artificial respiration.

GENERAL INFORMATION

REGREEN is a nonphytotoxic, permanent colorant specifically formulated to impart a long-lasting, natural green color when applied to dormant and nondormant turfgrasses.

DIRECTIONS FOR USE

FOR USE ON ALL DORMANT AND NONDORMANT TURFGRASS SPECIES FOUND ON GOLF COURSE GREENS, TEES AND FAIRWAYS, COMMERCIAL, MUNICIPAL AND RESIDENTIAL LAWNS, PARKS AND ATHLETIC FIELDS.

- Always mow turf to desired height prior to applying REGREEN
- Apply REGREEN spray solution to dry turf with flat fan nozzles at 30-50 psi to create small spray droplets that are easily retained by turfgrass
- Avoid application conditions that favor drift. REGREEN is a permanent colorant that will adhere to any dry surface. To minimize staining risk, wet concrete and masonry surfaces with water prior to application and rinse with water immediately after application.

SHAKE WELL BEFORE USING.

USE RATES

Use rates will depend on grass specie, mowing height and desired color.

Dormant Turf:

- Apply 12 ounces of REGREEN with .66 - .85 gallons of water for a total spray volume of .75 - .94 gallons per 1,000 square feet.
or
Apply 4 gallons of REGREEN with 31 - 35 gallons of water for a total spray volume of 35 - 40 gallons per acre.

Reducing water volume will result in darker turf.

The most uniform color and coverage is achieved by making two perpendicular applications at the higher dilution rates.

Nondormant/Discolored Turf:

- Apply 8 ounces of REGREEN with .93 - 1.25 gallons of water for a total spray volume of 1 - 1.31 gallons per 1,000 square feet.
or
Apply 2.75 gallons of REGREEN with 40 - 54 gallons of water for a total spray volume of 43 - 57 gallons per acre.

Use higher dilution rates and make two perpendicular applications for easier blending with healthy turf.

MIXING

- 1) Fill spray tank ½ full of desired water volume.
- 2) White agitating, add the appropriate amount of REGREEN.
- 3) Finish filling spray tank to desired level.

STORAGE AND DISPOSAL

May be stored below 32° F if thawed and thoroughly agitated before use. Keep container closed in storage. Do not allow water to be introduced. Store only in original container. Triple rinse when empty and offer for recycling. Always dispose of container in accordance with local, state and/or federal regulations. Do not reuse empty container.

CONDITIONS OF SALE

Note: Read the information contained herein before buying or using this product. If the stated terms are not acceptable, return the product at once unopened. It is critical that this product be used and mixed only as specified on this label. Neither the manufacturer nor the seller makes any representation or warranty, expressed or implied, with respect to the results from the use of this material. Buyer and user assume all risks of use and/or handling. Precision Laboratories, LLC warrants that this material is reasonably fit for use as specified on this label. No agent or representative is authorized to make any other representations concerning this material. Unforeseen factors beyond Precision's control prevent elimination of risks in connection with the use of its chemicals. Such risks include, but are not limited to, damage to plants and/or crops to which the material is applied, or lack of complete control and damage caused by drift to other plants or crops. Such risks may occur even though the product is reasonably fit for use as stated herein and even though label directions are followed. Follow directions carefully. Timing, mixture, method of application, weather and other conditions are influencing factors in the use of this product and are beyond the control of the seller. Except to the extent prohibited by applicable law, the exclusive remedy of the user or buyer and the limit of liability of the company or any other seller for any and all losses, personal injuries or damages resulting from the use of this product, shall be the purchase price paid by the user or buyer for the quantity of product involved.
