

# Pro Series Iron with AST<sup>®</sup>

*High performance  
pelletized iron and gypsum  
blend for quick green up  
and effective soil  
management*

## Pro Series Iron

**Fast Green Up** Highly concentrated iron goes to work quickly to green turf without excessive growth

**Long Lasting** AST<sup>®</sup> holds iron in the soil longer resulting in fewer applications

**Non-Burning** Safe to use on all types of plants. Will not burn turf, ornamentals or gardens

**Non-Staining** Will not stain concrete walks or driveways, even when wet

**Saves Money** Up to 5 times the coverage of other iron products

AST<sup>®</sup> –

## Advanced Soil Technology™

AST<sup>®</sup> is a biodegradable polymer blend that holds nutrients in place while creating micro-channels in the soil for enhanced plant performance

## Pro Series Iron with AST<sup>®</sup>

ENCAP's Pro Series Iron with AST<sup>®</sup> is a premium combination of iron, sulfur and gypsum designed to quickly green up turf and condition your soil without excessive plant growth. The iron used in ENCAP's Pro Series product is highly concentrated and effective in helping to develop strong root systems and disease resistant plants.

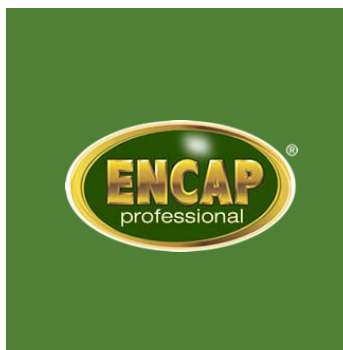

ENCAP's AST<sup>®</sup> technology is a proprietary blend of polymers designed to condition the soil and keep nutrients

right where you put them, even after it rains. The proprietary polymers create micro channels in the soil that help water and nutrients get to the root zone quickly making them readily available for plant uptake.

All of this in a product that is easy to use and dust free. ENCAP Pro Series Iron with AST<sup>®</sup> is the clear choice of landscape professionals.

ENCAP's Pro Series Iron with AST® provides quick turf green up without excess growth in a non-staining, non-burning pellet.

Magnified Product View

Guaranteed Analysis	
Iron	9.9%
Calcium	11.0%
Sulfur	34.0%
Gypsum	54.3%
Polymers	0.8%

Application	Rate	Frequency
Seed Establishment	2 lbs per 1,000 ft <sup>2</sup>	At installation
Existing Turf	2 lbs per 1,000 ft <sup>2</sup>	Up to 2 times / season
Trees	2.5 lbs spread evenly under a 25ft diameter canopy	Spring and fall
Shrubs	½ cup around base of plant	Spring and fall
Flower Gardens	5 lbs per 1,000 ft <sup>2</sup>	Spring
Vegetable Gardens	5 lbs per 1,000 ft <sup>2</sup>	Spring
