

PHC BioPak® Plus

PHC BioPak Plus is a dry, water dispersible micronutrient treatment that includes beneficial rhizosphere bacteria and 3-0-20 NPK fertilizer. Micronutrient treatments are excellent for plants undergoing or recovering from stress, and for plants expressing symptoms of mineral deficiencies such as chlorosis (pale leaf color) and necrosis (localized tissue death). Many acid-loving plants experience deficiencies, in particular iron or zinc, in soils that are alkaline or neutral making these minerals insoluble. This product contains various mineral macro-and micronutrients including iron, sulfur, magnesium, manganese, boron, and zinc that remain soluble in acid, neutral and alkaline soils.

PHC BioPak Plus:

- Provides nitrogen and 7 essential minerals needed by plants
- Reverses mineral deficiencies that cause chlorosis
- Increases microbial activities to improve soil fertility

DIRECTIONS FOR USE

PHC BioPak Plus has a near-neutral pH of 6 and can be tank mixed with diluted pesticides and fertilizers. Add product to the tank last. Mixed solution should be used within 12 hours.

APPLICATION RATES

ORNAMENTAL PLANTS/POTTED PLANTS

Application	PHC BioPak Plus	Water Volume	Method of Application	Coverage
New plantings	1 pound	25 gallons	Drench or spray to soil saturation	1000 square feet
Maintenance	1 pound	25 gallons	Drench or spray to soil saturation	2000 square feet
Pre-Digging/Transplanting	3 pounds	100 gallons	Drench 2 days prior to digging and immediately after installation	5 gallons per caliper inch or to soil saturation
Flower Beds	1 pound	25 to 50 gallons	Drench or spray to soil saturation	10,000 square feet

TREE/SHRUB CARE RATES

Application	PHC BioPak Plus	Water Volume	Method of Application	Coverage
Initial Application	2 pounds	50 to 100 gallons	Soil inject, drench or spray	1000 square feet
Maintenance	1 pound	50 to 100 gallons	Soil inject, drench or spray	1000 square feet
Iron Deficiency	3 pounds	50 to 100 gallons	Soil inject, drench or spray	1000 square feet

TURF CARE RATES

Application	PHC BioPak Plus	Water Volume	Frequency	Coverage
Lawns	1 pound	50 to 100 gallons	Monthly or as needed	10,000 square feet
New Seeding/Overseeding	1 pound	50 to 100 gallons	Every 2 to 4 weeks as needed	10,000 square feet
Hydroseeding	5 pounds	Tank mix at seeding	At time of seeding	1 acre
Sod Installation	5 pounds	50 to 100 gallons	2 to 3 days prior to harvest or after installation	1 acre

IN-LINE SYSTEMS

Fertigation	PHC BioPak Plus	Mix Tank	Dilution Setting	Procedure
Dosatron	5 pounds	5 gallons	1:100	After application, rinse water through system

FAST GREEN UP AND STRESS RECOVERY
