

GOALKEEPER II

PERENNIAL RYEGRASS

ATTRIBUTES

☆'s 5 = Outstanding, 4 = Very Good, 3 = Good, 2 = Moderate, 1 = Poor

★★★★★	Wear Tolerance	★★★★★	Pythium Blight Resistance
★★★★★	Seedling Vigor	★★★★★	Brown Patch Resistance
★★★★★	Winter Performance	★★★★★	Pink Snow Mold Resistance
★★★★★	Red Thread Resistance	★★★★★	Summer Density

- **Goalkeeper II** combines good seedling vigor and wear tolerance making it an excellent variety for sports turf as its name implies.
- **Goalkeeper II** has improvements in color, density and winter hardiness over its namesake, Goalkeeper.

PERFORMANCE HIGHLIGHTS

WEAR TOLERANT: In national wear trials using a Brinkman Traffic Simulator fitted with football cleats, **Goalkeeper II** maintained turf quality and a high percent of living ground cover. **Goalkeeper II** is great choice for athletic fields, helping keep your fields looking good with heavy wear.

WINTER PERFORMANCE: **Goalkeeper II** was bred in North Idaho has good cold temperature adaptation. It ranked among the top 5 against winter damage in trials in New York and had reduced low temperature damage in South Dakota. **Goalkeeper II** also maintains a dark green color in the winter.

OVERSEEDING: **Goalkeeper II** is adapted to overseeding on dormant bermudagrass and makes a great addition to perennial ryegrass blends. In an overseeding trial on dormant bermudagrass at Toscana Country Club in Indian Wells, CA **Goalkeeper II** mown at 7/16" (11 mm) displayed good quality, color

and density and can be mown down to putting green heights for overseeding.

SEEDLING VIGOR: **Goalkeeper II** is one of our fastest germinating ryegrasses and gets a jump on the season with excellent seedling vigor. **Goalkeeper II** establishes quickly resulting in little down time from your seeding project.

DISEASE & PEST PACKAGE: A variety with an impressive disease and pest resistance profile, **Goalkeeper II** exhibits high resistance to red thread, brown patch, pink snow mold, and pythium blight.

BLENDS WELL: **Goalkeeper II** is a good choice when used alone or with other Jacklin grasses in mixtures and blends for permanent turf in temperate and transition zone climates. Plant at 4-10 lb. per 1000 sq. ft. (20-50 g/m²). **Goalkeeper II** is adapted to use on sports turf, golf course fairways, roughs, and tees, home lawns, parks, and industrial and school sites.
