# Greenskeeper Drought Beater Mixture

## APPLICATIONS

- Traffic areas
- Sports fields
- Residential lawns
- Commercial sites
- Controls troublesome weeds
- Performs well under both heavy and light soils

## SEEDING RATES

**New Seeding Rate:** 8 to 10 pounds per 1,000 square feet  
**Over Seeding Rate:** 5 to 7 pounds per 1,000 square feet

## MIXTURE HIGHLIGHTS

- Tested and approved by the Turfgrass Water Conservation Alliance (TWCA) as your guarantee of true water savings. These varieties meet a very stringent set of testing criteria to merit the Green Guard H<sub>2</sub>O Seal of Approval.
- Requires less water, fertilizer, and mowing than most other grasses. Reduces need for inputs.
- Formula produces some rhizomes for lateral spreading.
- Very drought and traffic tolerant.
- Components consist of newer, fine-bladed tall fescues.
- Contains endophyte for disease resistance.
- Beautiful overall turf quality and color.

Please note that varieties may vary depending on availability and newer varieties that come on the market.
