**Ingestion:** May cause aggravation to respiratory tract  
**Inhalation:** Avoid breathing dusts. May cause nose, throat and lung aggravation.  
**Eye Contact:** May cause aggravation.  
**Skin Absorption:** Not normally absorbed through the skin.  
**Skin Contact:** May cause aggravation.  
**Effects of Overdose:** Ingestion of large doses may cause diarrhea, nausea, abdominal cramps or formation of methemoglobinemia. Seek medical attention.

## SECTION 4 FIRST AID MEASURES

**Ingestion:** If victim is fully conscious, immediately give a large quantity of water to drink, then induce vomiting by tickling back of throat with finger. Never give anything by mouth to an unconscious person.  
**Inhalation:** Remove person from contaminated area to fresh air or employ proper respiratory protection until adequate ventilation or other control measure is restored. Apply artificial respiration if necessary.  
**Eyes:** IMMEDIATELY flush eyes with plenty of water, holding eyelids apart to ensure flushing of the entire eye surface and lids. Do not apply any medication except on the advice of a physician.  
**Skin:** Wash with plenty of soap and water. Remove contaminated clothes and footwear. Wash clothing and decontaminate footwear before reuse. Do not apply any medication except on the advice of a physician.  
**Note to Physician:** There is no specific antidote if this product is ingested. If a large amount has been ingested and emesis is inadequate, lavage stomach. This product has a high affinity to activated charcoal. Fifty (50) grams activated charcoal in 400 ml water can be given to absorb the remaining material in the stomach. Treat the patient symptomatically.

## SECTION 5 FIRE FIGHTING MEASURES

**Extinguishing Media:** Water spray, foam, dry chemical, CO<sub>2</sub>, sand, or fine earth.  
**Special Fire Fighting Procedures:** Wear self-contained breathing apparatus and protective clothing.  
**Unusual Fire and Explosion Hazards:** Flammable or explosive with high-energy impact. During extremely high temperature fire conditions, the product may reach melting point and decompose to release NH<sub>3</sub>, SO<sub>x</sub>, PO<sub>x</sub>, or CN.

## SECTION 6 ACCIDENTAL RELEASE MEASURES

**Environmental Precautions:** Keep out of water supplies, lakes, ponds, streams and rivers. This product is a fertilizer and may promote algae growth.  
**Steps to be taken in case material is released or spilled:** Do not touch spilled product. Wear protective clothing, chemical-resistant gloves, shoes and safety glasses or goggles. Use approved respirator if exposure levels are high. If materials are uncontaminated, collect in resealable containers, label containers and reuse as directed on label. Do not reuse bag.

## SECTION 7 HANDLING AND STORAGE

**Precautions to be taken in handling and storing:** Store in original container in a locked storage area inaccessible to children or pets. Store separately from food, feed, fertilizer, seeds, and other pesticides so that cross contamination does not occur.
