★'s 5 = Outstanding, 4 = Very Good, 3 = Good, 2 = Moderate, 1 = Poor

★★★★	Close Mowing	★★★★	Summer Patch
★★★	Shade Tolerance	★★★★	Dollar Spot
★★★★★	Low Fertility	★★	Leaf Rust
★★★	Heat Tolerance	★★★★★	Leaf Spot
★★★★	Turf Density	★★	<i>Poa annua</i>

- **BlueChip Plus** is the affordable Kentucky bluegrass that compliments any Jacklin blend.
- It mixes compatibly with Jacklin Seed's premium *5-steps above*® varieties.
- Trusted by turf managers the world over for improved performance, superior consistency.

PERFORMANCE HIGHLIGHTS

FUNGUS FIGHTER: Adding **BlueChip Plus** to your blend provides additional resistance to summer patch, melting out, necrotic ring spot, leaf spot, pink and *Microdochium* snow mold, and dollar spot. It also resists seedling damping off.

CAREFREE LAWNS: **BlueChip Plus** brings quality performance to your lawn, park, or sports field at an affordable price. Its lush green color and plush growth crowds out weeds. **BlueChip Plus** adapts to sports field and home lawn mowing heights, with or without irrigation.

WINTER READY: **BlueChip Plus** has good cold-hardiness and performs strongly in the cool-arid region. **BlueChip Plus** provides early spring greening during March and April when other bluegrasses are still sleepy. It retains its color and vigor well into November.

BROAD ADAPTATION: **BlueChip Plus** has been successfully used on some of the top golf courses the world over. You can have confidence **BlueChip Plus** will perform for you.

BLENDS WELL: **BlueChip Plus**' rich color compliments all Jacklin grasses. Plant it at 2-3 lbs./1000 ft² (10-15 g/m²) with other bluegrasses. Mix it with ryegrass at 80% **BlueChip Plus**, or with tall fescue at 20% **BlueChip**.
