

INFERNO Turf Type Tall Fescue

STRENGTHS:

- Tied #1 in overall turf quality*
- Tied #1 for finest leaf texture*
- #1 variety for highest fall density*
- Rating equal to the top varieties for spring % living ground cover (LSD value)*
- Excellent durability under traffic
- Superb Brown Patch Resistance

PRODUCT DESCRIPTION:

INFERNO blazes into the turf-type tall fescue market with superior quality, fine leaf texture and attractive dark green color. **INFERNO** was developed through a cooperative effort between the New Jersey Ag Experiment Station and Jacklin Seed *by Simplot*. Plots were selected based on dark color, good resistance to disease, semi-dwarf stature, high turf density, and medium maturity. Approximately 80% of the breeder plants were classified as being infected with endophyte for increased persistence and insect resistance.

***INFERNO!* The Hottest Tall Fescue Variety Available**

SEEDING RATE:

350 - 525 lbs./acre or 8-12 lbs. per 1,000 sq.ft.
